Ward Boundary Review

What is a ward?
A ward is like a neighborhood or a small part of a Township. It's an area where people live, and it helps the Township organize things like schools, parks, and local government services so everyone gets what they need.

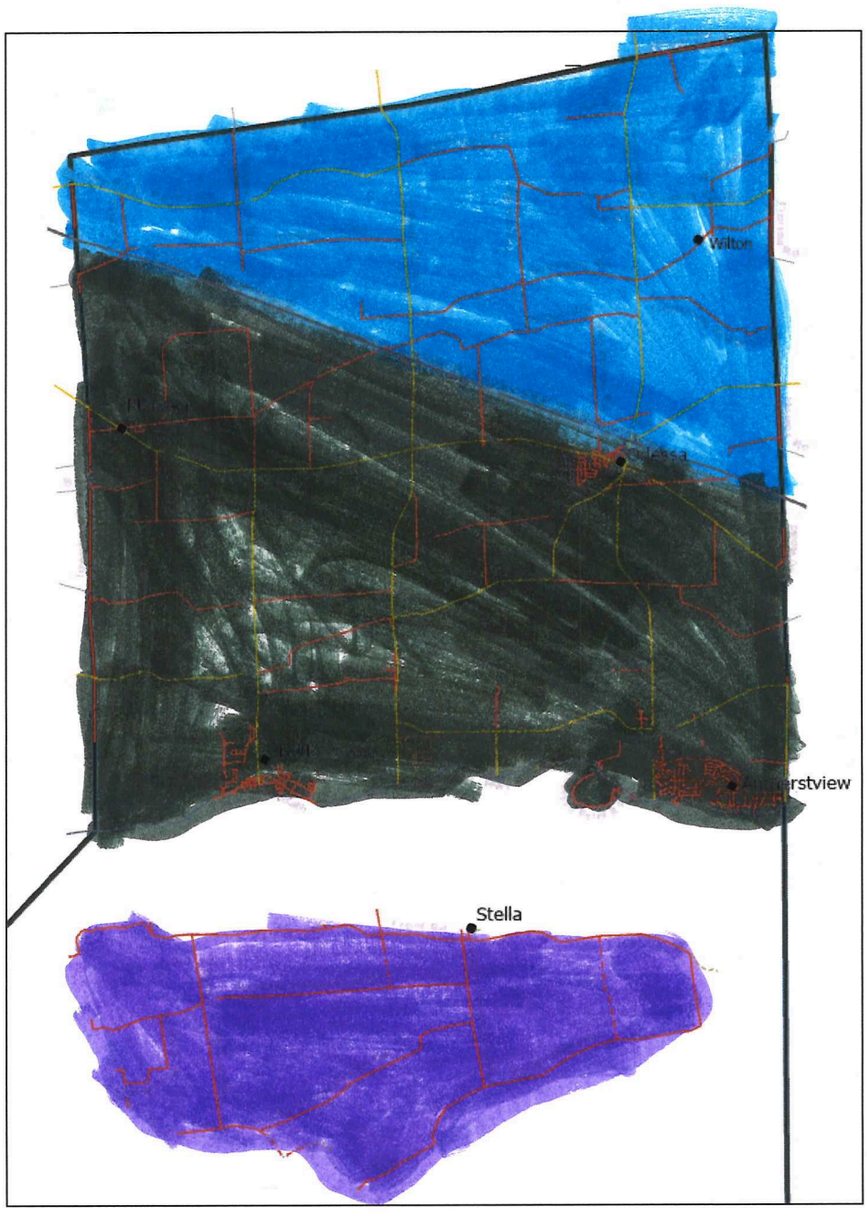

Ward Boundary Review
A ward boundary review is when people look at the lines that divide different areas in the Township to make sure each area has a fair number of people. This helps ensure everyone gets equal representation in local government decisions.

Why is it important?
Fair and equitable representation of wards is important because it ensures that everyone in the Township has a voice in local decisions. This means that no matter where you live, your needs and opinions are heard and considered, helping to make the community a better place for everyone.

Drawing Ward Boundaries - Using crayons or coloured pencils, divide the Township map into wards. YPPou have to follow the rules!

Rules:

- There is no limit to the number of wards you can create.
- Wards should be one continuous shape, not split into separate parts.
- Try to keep neighborhoods and communities together within the same ward. (Use natural features like rivers, roads, or parks to help define ward boundaries.)
- Wards should be as compact as possible, avoiding odd shapes.
- Try to ensure that each ward has access to important services like schools, parks, etc.
- Interesting concepts will be shared with the public, consultants, and Township Council.

- Try to keep neighborhoods and communities together within the same ward. (Use natural features like rivers, roads, or parks to help define ward boundaries.)
- Wards should be as compact as possible, avoiding odd shapes.
- Try to ensure that each ward has access to important services like schools, parks, etc.
- Interesting concepts will be shared with the public, consultants, and Township Council.

Ward Boundary Review

What is a ward?
A ward is like a neighborhood or a small part of a Township. It's an area where people live, and it helps the Township organize things like schools, parks, and local government services so everyone gets what they need.

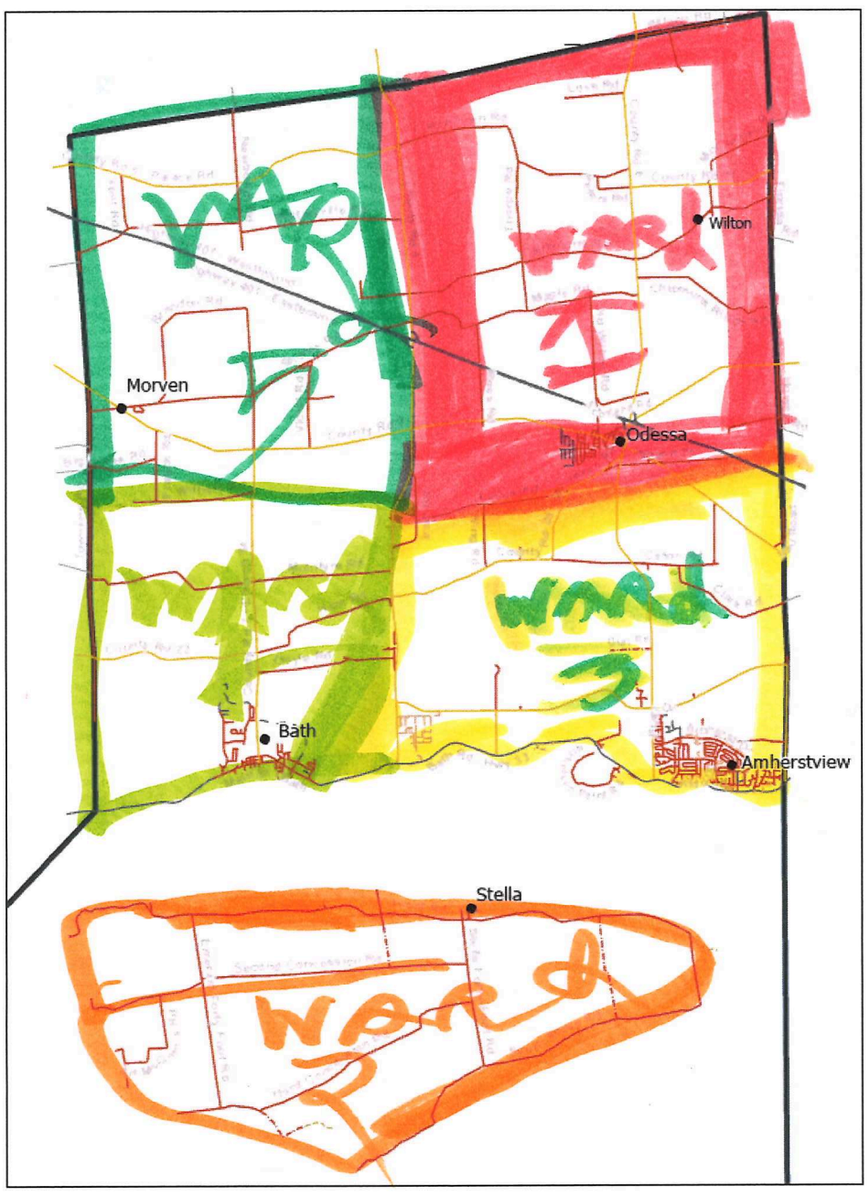

Ward Boundary Review
A ward boundary review is when people look at the lines that divide different areas in the Township to make sure each area has a fair number of people. This helps ensure everyone gets equal representation in local government decisions.

Why is it important?
Fair and equitable representation of wards is important because it ensures that everyone in the Township has a voice in local decisions. This means that no matter where you live, your needs and opinions are heard and considered, helping to make the community a better place for everyone.

Drawing Ward Boundaries - Using crayons or coloured pencils, divide the Township map into wards. YPPou have to follow the rules!

Rules:

- There is no limit to the number of wards you can create.
- Wards should be one continuous shape, not split into separate parts.
- Try to keep neighborhoods and communities together within the same ward. (Use natural features like rivers, roads, or parks to help define ward boundaries.)
- Wards should be as compact as possible, avoiding odd shapes.
- Try to ensure that each ward has access to important services like schools, parks, etc.
- Interesting concepts will be shared with the public, consultants, and Township Council.
